

LLOYD ALLEN CLAVO

Process Analyst | Operations Excellence | Continuous Improvement
Taguig / Makati City, Philippines • 0966 798 0880 • gotmilk766@gmail.com

PROFESSIONAL SUMMARY

Process-focused professional with 8+ years of experience in process analysis, workflow optimization, and high-volume operations support. Skilled at examining end-to-end processes, identifying bottlenecks and non-value-adding steps, documenting current-state workflows, and driving practical improvements that increase efficiency and consistency. Strong background in cross-functional collaboration, performance data tracking, and supporting continuous improvement in fast-paced environments. Analytical, detail-oriented, and committed to delivering measurable operational results.

PROFESSIONAL EXPERIENCE

Process Analyst

February 2020 – August 2021

Emapta Philippines Inc.

- Sourced job postings directly from client companies rather than third-party agencies, verifying role details for accuracy before publishing each listing on the company platform, which maintained a steady, quality-controlled pipeline of open roles.
- Classified each posting by industry and functional category — including software development and other technical and non-technical disciplines — establishing clear, consistent criteria that reduced misclassification and supported faster, more accurate client matching.
- Evaluated the seniority level of each role, from individual contributor through manager and C-level, and applied corresponding salary benchmarks and pay ranges, improving pricing accuracy and consistency across postings.
- Reviewed and matched subscribed clients to their preferred roles by cross-checking submitted credentials, resumes, and portfolios against posting requirements, increasing placement accuracy and shortening decision turnaround time.
- Maintained close coordination with cross-functional teams to keep classification criteria and salary benchmarks up to date, strengthening consistency and decision speed across the posting workflow.

Process Analyst

June 2017 – February 2020

iOPEX Technologies

- Identified and sourced job postings directly from client companies across a range of industries, bypassing third-party agencies, and posted fully vetted listings to the company platform to keep the job pipeline accurate and current.
- Reviewed each posting in detail to determine its industry and functional category — including software development and other technical roles — applying consistent classification standards that improved routing accuracy and reduced processing delays.
- Assessed whether each role was individual-contributor, managerial, or C-level and assigned the corresponding salary range, supporting accurate, standardized benchmarking across a high volume of postings.
- Supported subscribed clients in securing their preferred roles by validating submitted credentials, resumes, and portfolios against posting requirements, helping ensure a strong fit before submission.
- Documented process steps and classification standards to support consistency, easier knowledge transfer, and ongoing improvement of the posting workflow.

Operations Support – Voice & Chat

May 2022 – July 2025

24/7.AI Philippines (Kohl's Account)

- Handled high-volume, multi-channel (voice and chat) customer support for order processing, payment issues, account management, and fraud claims, applying standard operating procedures consistently across every interaction.
- Investigated and resolved fraud-related and security escalations by following defined verification and action protocols, protecting customer accounts while minimizing risk and processing errors.
- Maintained strict adherence to compliance and quality standards during escalations, balancing thorough issue resolution with efficient handling times in a fast-paced, metric-driven environment.
- Consistently met or exceeded performance metrics for quality, resolution accuracy, and customer satisfaction, contributing to stable, reliable operational performance under sustained high demand.

Operations & Process Lead / Content Compliance

October 2024 – June 2025

Passion Rich Studios (German-based Agency)

- Managed end-to-end daily operations for a portfolio of creators, overseeing a team of chatters and directing engagement and content workflows to improve consistency, output quality, and revenue performance.
- Designed, implemented, and enforced content review and compliance procedures to ensure all creator and chatter activity met platform standards, proactively identifying and mitigating compliance risk.
- Acted as the primary operational liaison between creators and subscribers, coordinating communication flows, resolving issues, and ensuring a consistent subscriber experience across accounts.
- Tracked individual and team performance against defined targets, using performance data to identify gaps and drive continuous improvement across the creator portfolio.

Engagement Operations Specialist
July 2025 – May 2026

Dreamy Management & Chatting

- Executed structured engagement and sales workflows across a high volume of concurrent customer interactions, consistently generating \$1,000–\$2,000+ in shift revenue through disciplined process adherence and effective conversion techniques.
- Managed retention-focused conversations and content-handling controls in real time, maintaining professional standards and compliance while balancing speed and quality under tight performance targets.
- Applied consistent engagement and sales scripts and escalation procedures across shifts, contributing to predictable, repeatable performance outcomes in a demanding, metrics-driven environment.

EDUCATION

Bachelor of Arts in Political Science
2016 – 2020

University of Makati (College of Governance and Public Policy)

Computer Hardware Servicing
2010 – 2012

Treston International College, Bonifacio Global City, Taguig

CORE COMPETENCIES & SKILLS
